

CIPLUVI 10

An effortless option to
continuously clean
conveyor surfaces

Constantly
updated real-time
data display

All controlled
from a integrated
touch screen

Allergen clean is
more efficient and
effective

Elimination of bio
film build up,
prevention of
Entero & Listeria
traps

igene

CIPLU V110

I-Gene CIPLU washes, rinses and dries the surface of conveyor belts without any disruption of the production line. Sanitized water is sprayed under pressure onto the surface of the belt to achieve the highest standards of hygiene and prevent contamination.

The belt is then rinsed with clean water to remove any sanitizer residue before being vacuumed dry on both sides. The system employs a recirculating sump of sanitizer to dramatically cut down on water consumption. All features of the machine are fully programmable from the user touch screen mounted on the panel.

DIMENSIONS

Width	20.86 inches	Length	50.59 inches
Height	31.49 inches	Weight	150kg

SPEED

Typically 10-300mm/second

ELECTRICAL

Supply	220V AC	Current	16 A
Frequency	50 Hz	Control Voltage	24 volts

PNEUMATICS

Bar Pressure	58 - 87 psi	Consumption	<1 cubic feet per minute
--------------	-------------	-------------	--------------------------

KEY FEATURES

- All debris is removed from the food contact area on each revolution of the belt, preventing build up and cross contamination
- The units are self-contained, portable and can be easily removed for maintenance and cleaning without interruption production
- The CIP unit does not disturb the path of the belt, so lines can be run with or without the unit fitted
- Vacuum System - a unique vacuum system incorporating an air lock eliminates the need for pumps to dispose of water, making this the most reliable machine on the market
- Sanitized dosing - Available with an inbuilt dosing pump and brackets to mount 5L drums of sanitiser directly onto the machine.
- Provide excellent bacteriological and allergen cleaning

• Complete service contract available, typically 6 months full service, maintained by our experienced Service Technicians

• Emergency Call out Facility available

• Purchase spares from our Customer Service Team with ease. Most are shipped same day

• Training packages available to suit your business, carried out at both PDI stage and in situ

• 6 Month Warranty
