trouble-free  
cleaning

Simplify  
the processing  
of food products

Can be produced  
in various lengths

Controlled via  
a PLC and  
touch screen

# Diffusion Production Line

The Diffusion Line conveyors represent the ideal small scale production line system for food producers. The line is fully featured and comes with a full range of accessories.

Product trays can be mounted along both sides of the line on the inbuilt rail system. The line features touch screen control, integration for buttering and depositors. Production rates can be controlled via the inbuilt indexing
