

# OWC Ultrasonic Wrap Conveyor VI00

Reliable, high speed  
transportation

Fitted  
with a  
flighted infeed

Titanium  
cutting  
blade

100  
operations  
per  
minute

## Efficient way to transport

The I-Genie Food Systems Inc OWC Ultrasonic Wrap Cutter V100 utilizes a titanium cutting blade, vibrating at 20kHz, to cut wraps with minimal distortion.

This machine is fitted with a flighted infeed carrying the wraps to an automatic aligner to align the wraps for diagonal cutting at 45 degrees. The transfer of cut wraps is smooth on to the WEC exit conveyor for packing.

The machine speed is only limited by the speed of the aligner which will typically run at up to 100 operations per minute.

Within our service

- Complete service contract available, typically 6 months full service, maintained by our experienced Service Technicians
- Emergency Call out Facility available
- Purchase spares from our Customer Service Team with ease. Most are shipped same day
