Ultrasonic Sandwich Cutter SKF

The ultrasonic cutting machine uses an Aerospace grade titanium blade vibrating 20,000 times a second to achieve the perfect cut. A full kilowatt of cutting energy is instantaneously available at the blade, allowing the machine to effortlessly cut even the most difficult of products with no distortion or tearing.

DIMENSIONS			
Width	22.96 inches	Depth	78.74 inches
Height	60.99 inches	Working height	35.44 +/- 3.94 inches
OUTPUT			
UPTO 80 CUTS PER MINUTE			

ELECTRICAL			
Supply	220V AC	Current	10A
Frequency	50-60 Hz single bar	Protection rating	IP65

KEY FEATURES	
<ul style="list-style-type: none"> Hygienic design Energy efficient Super clean ultrasonic cutting Servo controlled aligners Full recipe handling Rapid setup times 	<ul style="list-style-type: none"> Precision servo alignment Rapid strip down and cleaning Fully interlocked Touch screen control 3.55 inches maximum cut height Typical speed 80 operations per minute

PRODUCTION PLANNING/MONITORING
In built gateway to i-Genes INFORM software. Touch screen control of production/recipe data

Within our service

- Complete service contract available, typically 6 months full service, maintained by our experienced Service Technicians
- Emergency Call out Facility available
- Purchase spares from our Customer Service Team with ease. Most are shipped same day
- Training packages available to suit your business, carried out at both PDI stage and in situ
- 6 Month Warranty
