

Volume Servo Depositor VI70

Up to
60 operations
per
minute

Energy efficient

Touch screen
control

Rapid reload times
for fast sheeting

Serving up your sauces...

The I-Gen VSD Servo Depositor is an energy efficient, super accurate, fully mobile servo operated depositor with touch screen control, full recipe handling and rapid change over parts. The depositor can deliver 100 operations per minute - direct depositing, 60 operations per minute - sheeting.

It offers several major benefits compared to pneumatic operated depositors: Accurate depositing, adjustable to 0.1g. Deposit weight, product density, deposit delay, deposit time and suck back are all adjustable parameters giving ultimate accuracy.

Calculated savings up to more than \$5000 per year, and also eliminate dirty contaminated air entering the production environment.

Within our service

- Complete service contract available, typically 6 months full service, maintained by our experienced Service Technicians
